# 2016-01-14 Meeting notes

## Date

📅 14 Jan 2016 - last meeting

## Attendees

- Thomas Cherry
- Chris Durbin
- Christopher Gokey

## Topics

- To SERF or not to SERF that is the question (when?)
  - months away?
- Delete API, CMR showed GCMD all we needed, we will start consuming the API
  - https://cmr.sit.earthdata.nasa.gov/search/site/search_api_docs.html#retrieving-all-revisions-of-a-collection
- JSON Metadata
  - Not ready, when can GCMD start using this output?
- Location Keywords
- Indexing of fields
  - CMR is changing it's implementation?
  - GCMD needs to give list of fields needed in "keyword" (CMR term) search and in fielded search
  - Example, Query by Parent
    - GCMD will write up a requirement document
- Facet Changes
  - When will work start, expected impact on GCMD?
- Questions not asked in tech meeting:
  - 10.2 a schema, CMR has all it needs?
  - Enumeration used by CMR ingest, where can we find these?

## Discussion Items

| Time | Item | Who | Notes |
|------|------|-----|-------|
|      |      |     |       |
|      |      |     |       |

## Action items

- ☐
